

# MULTI-CRAFT CORE CURRICULUM (MC3)

## CONSTRUCTION INDUSTRY'S NEXT STEPS TO APPRENTICESHIP AND YOUR SUCCESS

The MC3 Apprenticeship Preparation program is a certified program of North America's Building Trades Unions (NABTU) and sponsored locally by the Milwaukee Building & Construction Trades Council (MBCTC) in partnership with local Trades & Apprenticeship Committees.

MC3 is available for qualified apprenticeship applicants seeking to prepare for success in an apprenticeship and journey into the professional skilled trades. MC3 is a 130 - 160 hour program that provides students accelerated education and hands-on learning from experienced and skilled tradespeople. Graduates will be recognized with certification from NABTU, receive essential industry certifications in worksite safety, and acquire an advanced level of knowledge and skill needed to succeed in the apprenticeship classroom and on the worksite.

As part of this program, you may qualify for the Department of Transportation TrANS Roadbuilding certificate program if you meet the minimum qualifications. TrANS certification programming is tied to contractors with Department of Transportation workforce needs. MC3/TrANS increases your opportunity for a career in the skilled trades.
