

# Benefits of *Working at Quad*

Production opportunities at Quad instill a sense of empowerment and possibility distinct from those at other employers. Here, you'll start at a competitive wage with an opportunity to earn even more through our onsite paid training programs to advance to an operator level position.

At Quad, you will benefit from:

- Multiple shift options
- Hands-on safety, technical training and development necessary for a long-term career
- Onsite health care and fitness center
- Paid vacation and holidays
- Opportunity to build retirement savings

## FULL-TIME START WAGE

+ *earn up to 10% more*  
through our Manufacturing  
Performance Program

“The people, the culture, and the environment at Quad is nothing I have ever experienced before. The training and support they provide made me feel like they wanted me to succeed and advance my career. The team makes you feel like family, and will always stand behind you so that you succeed.”

– Leon, Quad employee

“Over the last four years at Quad I have met new, nice people who want to help me succeed. I received onsite training that helped me become a Second Pressman and become more handy outside of work. I now have insurance for my family, and I am able to feed my family and provide for them because of Quad.”

– Dell, Quad employee
